

FEVARO

6% EDDHA-chelated iron for nutrition programmes in high-pH conditions.

- 6% chelated iron
- EDDHA formulation
- High-pH nutrition

Composition at a glance

Constituent	Content
EDDHA-chelated iron	6%

Constituents are shown individually. Nitrogen fractions and other constituents may overlap; percentages must not be added.

Iron for demanding conditions.

FEVARO is an EDDHA-chelated iron powder. The reference product focuses on iron nutrition under high-pH conditions and sustained colour care. Turf colour alone does not establish iron deficiency: assess the surface and soil before defining the programme.

APPLICATION PLANNING

Set dose, method, water volume and compatibility against the current product label and a site assessment.
