

HUVORA

Organic matter, humic and fulvic acids, amino acids and micronutrients.

40% organic matter

18% humic + fulvic acids

7% free amino acids

OM • AA • Micros

Composition at a glance

Constituent	Content
Organic matter	40%
Total nitrogen	10%
Total humic + fulvic acid	18%
Free amino acids	7%
Water-soluble boron	0.09%
Water-soluble copper	0.09%
Water-soluble iron	0.4%
Water-soluble zinc	0.3%
pH range	3.5 - 5.5

Constituents are shown individually. Nitrogen fractions and other constituents may overlap; percentages must not be added.

Care starts in the rootzone.

HUVORA combines organic matter with humic and fulvic acids, free amino acids, nitrogen and micronutrients. It is designed around a complete soil-and-plant care programme, with 10% total nitrogen and boron, copper, iron and zinc in the reference composition.

APPLICATION PLANNING

Set dose, method, water volume and compatibility against the current product label and a site assessment.
