

MAGVANT

Magnesium and nitrate nitrogen for colour-focused turf care.

6% nitrate nitrogen

9% MgO

Seasonal colour care

Composition at a glance

Constituent	Content
Nitrate nitrogen	6%
Water-soluble magnesium oxide (MgO)	9%

Constituents are shown individually. Nitrogen fractions and other constituents may overlap; percentages must not be added.

Colour, with magnesium.

MAGVANT is a liquid magnesium nitrate formulation for colour-focused turf programmes. The reference product is positioned for dark-green colour, including winter and low-light care. Its source describes a rapid response without specifying a number of hours.

APPLICATION PLANNING

Set dose, method, water volume and compatibility against the current product label and a site assessment.
